Subject: Notification of Wellhead Modification Activities
Lot 8
1451 Knox Street
Los Angeles, California

Dear Mr. Heramia:

This letter is to inform you that Boeing Realty Corporation (BRC) will be conducting wellhead modifications of 10 underground wells on the property that you are leasing located at 1451 Knox Street in Los Angeles, California (Site). The wells that are affected are located east of the building as shown on the attached Figure 1. Field activities will start on March 26, 2007 and are anticipated to be completed by March 30, 2007.

The wellhead modifications will require approximately 3 foot by 3 foot area around each location to be excavated to an anticipated depth of 3 feet to expose the underground well casing and piping. New piping and valves will then be installed. All exposed excavations shall be covered with trench plates when work is not being conducted at that location and at the end of each work day. The wells will then be completed with a 18-inch round traffic-rated steel well cover set in concrete and mounted flush with the existing surface.

The personnel and equipment on-Site will include one superintendent, three laborers, one CDM oversight person, backhoe, jack hammer, generator, and a containerized 20-yard soil bin. All soil and construction debris generated from the field activities will be stored on-site in the roll-off bin at a suitable location approved by CTSI and disposed off-site as soon as possible.

Additional work as discussed in the March 12, 2007 meeting between you, Mr. Dennis Carlson of Boeing and Mr. Ravi Subramanian of CDM will start mid to late April 2007. A separate notification will be sent for that work.
